Unfinished Business: Continue Review and Edits of UDR

J. Thomas recommended that in the Enactment section that it be included that these corrections/rewrite replaces the Zoning Ordinances of 2021 and the Subdivision Regulations of 1986. Commission members reviewed and discussed the draft of the UDR and the changes that have been made to date, as well as making a few minor typographical or grammatical errors. Discussion on how the changes and various versions of the document can be provided to members so they can review and/or make notation and changes as one document and whether the notations of changes made should be included or if they should be removed. It was felt that they would leave the edits for the final review, and that the recording secretary would make the merge of the documents into one for the next meeting.

Other Business
